

# **OPERATIONAL PLAN 2024/25**

## **FEES & CHARGES**

# Fees and Charges

The Fees and Charges Schedule sets the maximum price payable for any particular activity or service provided by Council.

Fees or Charges less than the maximum listed amount are either set by Council through a resolution or by the General Manager or Council Officers through delegated authority.

It is important to note that the Fees or Charges that appear in the following schedule can vary according to the type of activity or user.

For example, differential pricing exists for the users of community halls and open space. The basis for differentiation lies in the categories outlined in the Pricing Policy.

## Pricing Policy

Four Pricing Categories are used in the 2024/25 Fees and Charges to ensure that the range of fees and charges reflect the cost of providing services to the Woollahra Community.

As a matter of policy, Council increases fees and charges each year by at least the CPI where practical unless it would have an adverse impact on forecast revenue or users' capacity to pay. Variations to this are reported to Council and determined.

## Pricing Policy categories:

### ST – Statutory

Statutory Pricing occurs if relevant acts and regulations enable Council to set a fee or charge, or the relevant acts and regulations prescribe a maximum fee for a particular activity.

These charges are legislated by the New South Wales Government across a range of activities and services provided by local government.

### SUB – Subsidised

Under subsidised pricing, the price for service is set below the financial cost of providing that service.

### COST – Cost Recovery

The fee or charge set under cost recovery pricing recovers for Council the cost of providing a service to the community.

### FCR – Full Cost Recovery

Council sets the price for a service or activity to recover the cost of providing a service with a built-in rate of return on any asset being used or a mark-up for the service.

Blackburn Gardens, Double Bay

		assessment report has been completed and signed off but the application remains undetermined or in the opinion of Council the changes are such that will require substantial re-assessment		assessment report has been completed and signed off but the application remains undetermined or in the opinion of Council the changes are such that will require substantial re-assessment	assessment report has been completed and signed off but the application remains undetermined or in the opinion of Council the changes are such that will require substantial re-assessment		assessment report has been completed and signed off but the application remains undetermined or in the opinion of Council the changes are such that will require substantial re-assessment		applications (clause 90 of EPA Reg 2000) applications lodged by the applicant and the fee depends upon the extent of assessment work already completed. This fee does not apply where Council has in writing requested the Applicant to amend the plans. This fee recognises that the original DA fee is often expended assessing applications later amended by applicants at their own initiative and more commonly when they become aware that the original DA may not receive favourable consideration. This fee is in addition to any additional advertising or integrated assessment fees that may be required.
